June 29, 2020

In an effort to better serve and protect our staff and future campers during the unique circumstances presented by COVID-19, THE RANCH will be following all guidelines offered by the Center for Disease Control and Prevention (CDC), The Kentucky Cabinet for Health and Family Services, and Andy Beshear, Governor of The Commonwealth of Kentucky, to the BEST of our ability. We have completed and are implementing all the requirements to remain open to the public by putting into place and practice THE RANCH Covid Preparedness and Response Plan (CPRP). All groups and visitors (to the best of their ability) will adhere to THE RANCH CPRP while on property. All visitors, including but not limited to: outside vendors, scheduled groups, contractors, and volunteers must notify and/or be approved by the Executive Director, Mark Buerhaus.

We have always made every effort to make THE RANCH accessible to our community and volunteers, and we will continue to do so; each of you are loved, valued, and critical to our success in sharing the faith of Jesus Christ to everyone that enters the gates. The well-being of our staff and future campers is our first priority, and this is a necessary step to maintaining a healthy and safe environment for future camping seasons. Thank you for your patience and cooperation with this temporary shift in policy, and we look forward to your visit.

God Bless,

Mark A. Buerhaus
